Franciscan Peacemakers provides a pathway to sustainable, healthy, safe, and productive lives for women engaging in prostitution due to trauma, human sex trafficking and drug addiction.

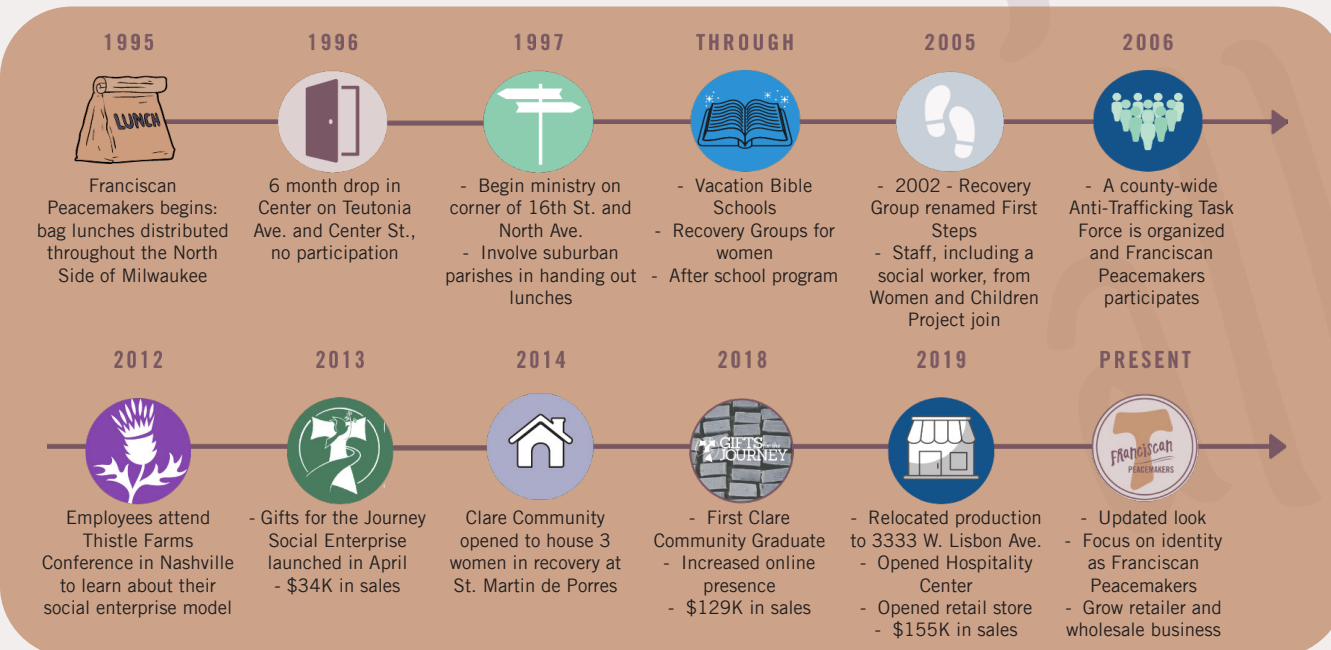

## Our Mission

Franciscan Peacemakers connects women survivors of sexual exploitation to safe housing, meaningful work and a healing network of support. We work for an end to human sex trafficking through service and advocacy because we believe that everyone is created to enjoy peace and all good.

## Our Story

## Our Method & Programs

### Connect

Hospitality Center at Franciscan Peacemakers also provides respite and peer support for women.

### Employ

Survivors are provided living wage jobs in our Social Enterprise which manufactures and sells all natural bath and body products. Employees living in Clare Community save half of their income so, upon completion of the program, they have money saved up for moving into independent housing.

### House

Clare Community is a two year program that provides housing for women who are recovering from sexual exploitation and substance addiction. Residents gain two years of employment experience as well as

opportunities to engage in healing various aspects of their lives: trauma care, physical, emotional and mental health, legal aid, and relational healing.

### Advocate

Franciscan Peacemakers staff and board provide education to parishes, schools, and community groups to raise awareness about human trafficking. Our team is also a part of the county-wide Anti-Human Trafficking Task Force and interfaces with several Anti-Trafficking Advocacy groups in Southeastern Wisconsin.
